Another Luxurious, New  
Apartment Community Centrally  
Air Conditioned by Natural GAS!

**COMMONS**

4730 Olentangy River Road, Columbus

Quiet, central Gas air conditioning that provides the ultimate in year 'round comfortable, convenient living is among the special features offered in the townhouses and apartments in handsome and charming Olentangy Commons.

The 236-unit community of one, two and three-bedroom apartments and townhouses offers a unique and desirable park setting in the heart of the historic Olentangy River valley.

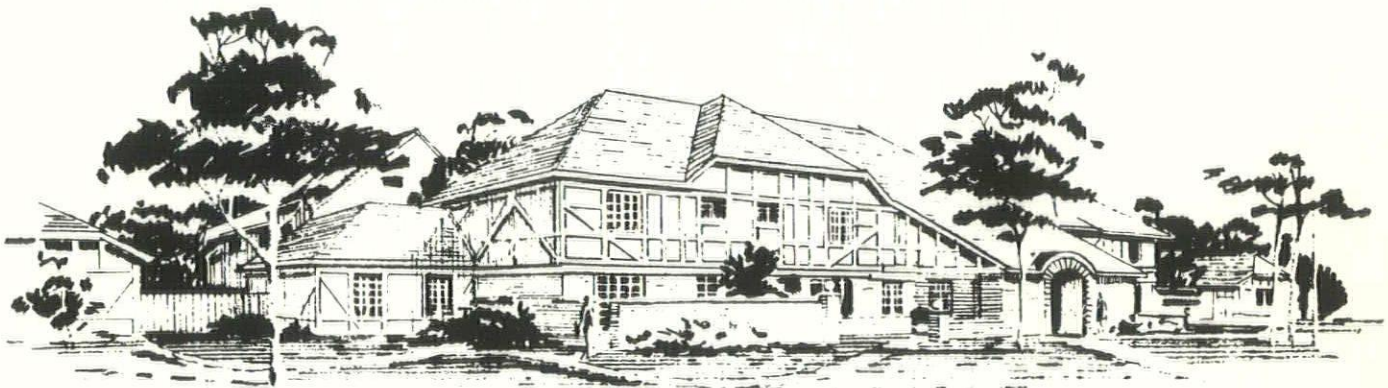

Gas equipment, including both Bryant and Arkla units, will provide high-quality, low-cost cooling for the Olentangy Commons townhouses and apartments. Kitchens

throughout the community will come equipped with modern Gas ranges. Space heating and water heating also will be provided by Gas.

Naturally, Gas will heat the outdoor swimming pool, adjacent to the Olentangy Commons recreational center. And there will be Gas grills in outdoor settings for the convenience and enjoyment of Olentangy Commons residents.

Developer . . . . . George Skestos  
Architect . . . . . Joseph G. Shuster & Assoc.  
Acock & Trees  
Builder . . . . . Luethi Building & Service Co.

For further information concerning the cooling, heating, cooking and water heating needs of your clients, contact your local Gas Company office.

# It ought to be in blueprints.

Do you know that tenants will soon need more than telephones to communicate? They'll need Picturephones, Data-Phone\* service, teletype-writers, Tele-Lecture, even closed-circuit TV.

You should plan for permanent communications systems before you begin new construction or modernization, so your building will stay up-to-date no matter what communications improvements come along.

At no charge, an Ohio Bell specialist will provide you with technical advice for planning telephone conduit, riser shafts, new wiring techniques, equipment closets and underfloor cable distribution systems.

While you're in the planning stage, get the experienced counsel of our communications specialists. Call any of the offices we've listed here.

*\*Service Mark of the Bell System*

Akron 216/384-3741, Cleveland 216/622-7894, Columbus 614/463-8200, Dayton 513/449-6325,  
Steubenville 614/283-8218, Toledo 419/247-7555, Zanesville 614/452-9166.

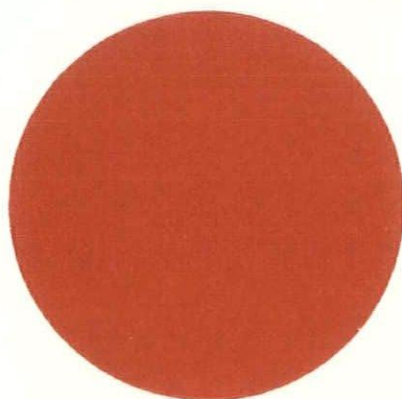

There are three vital reasons why imaginative architectural design takes shape when BELDEN Brick is used: BELDEN provides MORE distinctive colors. MORE exclusive textures. MORE adaptable sizes. Over 200 variations of brick to free the imagination of the creative architect, from sand mold colonial brick through earthy browns to mechanically perfect pearl grays.

Your nearest BELDEN Dealer will gladly show you the facts in the form of samples and our new 4 color brochure, or write us at P. O. Box 910, Canton, Ohio 44701.

# operation RESURRECTION

douglas woodman

"Operation Resurrection," a University of Cincinnati project to honor famed architect Henry Hobson Richardson, is aiming for a completion date during Spring, 1970.

Begun in 1966 by UC architecture students and faculty with the support of members of Cincinnati's business and professional community, Operation Resurrection set out to construct a permanent Richardson monument from the carved stone remnants of Richardson's Cincinnati Chamber of Commerce Building.

The once-elegant building was destroyed by fire in 1911. Stonework from the structure has remained strewn on the hills of the Cincinnati Astronomical Society since that time.

Following the donation of the stones by the Society, Operation Resurrection participants conducted a design competition to select an appropriate memorial design. Senior UC architecture student Stephen J. Carter submitted the winning design, using approximately 130 stone pieces in a circle with a 32-foot diameter.

According to the judgment of the design jury, Carter's design helps reveal the intrinsic value of the individual stones. The stones will be set singly upon a concrete pad. The tallest of the pieces is about 18 feet high.

Site of the monument will be Cincinnati's Burnet Woods, adjacent to the University. To realize completion of the project, however, an estimated \$15,000 is needed. This figure includes costs of moving the stones and erecting the

granite. With receipt of these funds, construction will begin. Dedication ceremonies are planned at the completion of the project.

The Miami Purchase Association has agreed to receive all contributions for the construction of the monument. The Association is a charitable, tax-exempt organization dedicated to identification, preservation and restoration of historic buildings and sites.

The Association's sole function in connection with Operation Resurrection is to receive and account for contributions. Checks may be made payable to "Miami Purchase Association — Operation Resurrection."

Supporting organizations for Operation Resurrection include the Cincinnati Park Board, Miami Purchase Association, Cincinnati Astronomical Society, Cincinnati Historical Society, Contemporary Arts Center, Cincinnati chapter AIA, Haines, Lundberg and Waehler architects, University of Cincinnati student chapter AIA, and the University of Cincinnati department of architecture.

## BOARD of TRUSTEES

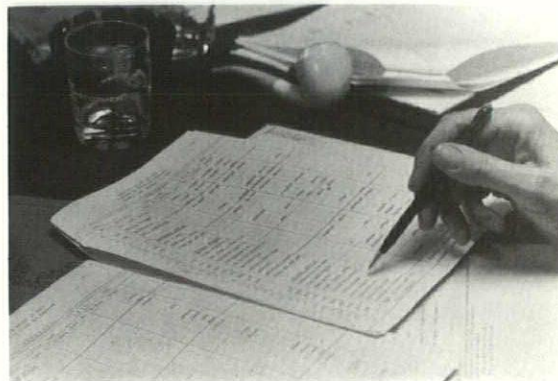

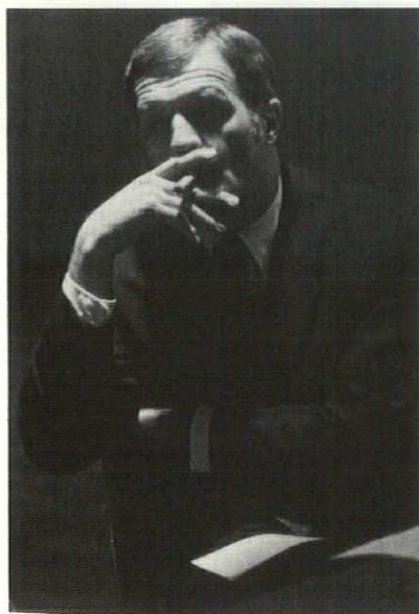

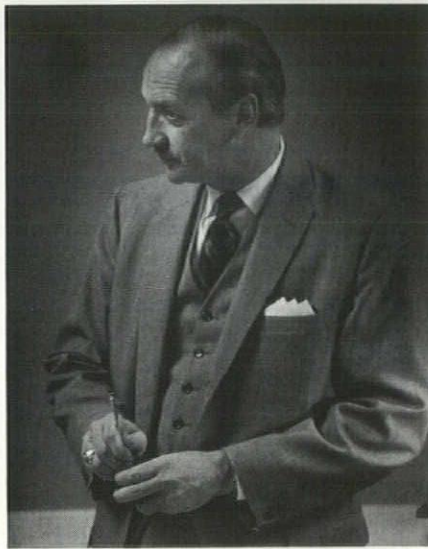

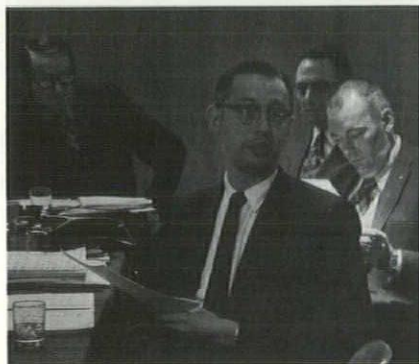

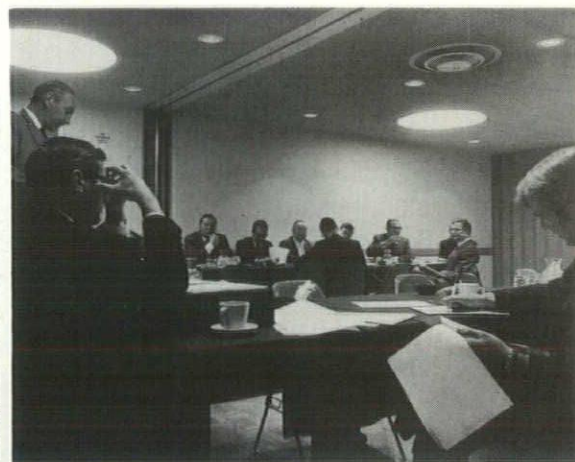

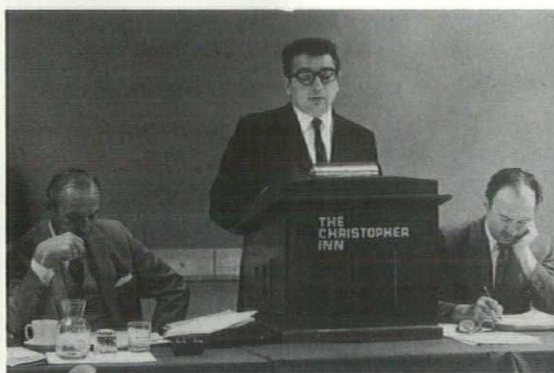

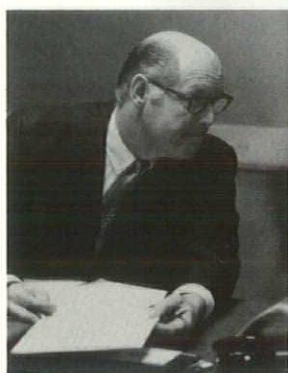

MEETING

The Christopher Inn in Columbus was once again the scene of an ASO Board of Trustees meeting, on January 17. Items on the agenda included discussion of the budget, the hearing of a report on the Grassroots meeting in Washington D.C., and setting of goals for the coming year.

Among those goals: increases in membership, both individual and firm; improving communications between ASO's office and the chapters; and four Professional Development Seminars, all to be held in Columbus.

The Board also elected two Trustees to serve on the Executive Committee: George Walter, of Dayton, and James Gallagher of Cincinnati.

TIME AGAIN

# environment: the second hundred years

pause in the continuum of time and space to contemplate the function of the architect as a determinant in his environment in this year of 1970 the one hundredth anniversary of the fourth oldest chapter of the american institute of architects in cincinnati ohio where the architects society of ohio is convening from october the 29 to the 31 at stouffer's inn with meetings in the inn and at the convention center and exhibits in the convention center concurrent with the meetings of the association of collegiate schools of architecture and the association of student chapters bringing almost five hundred faculty and students together with architects for joint meetings particularly on saturday anticipating the largest attendance ever at any architects society of ohio annual meeting the seminar and social events will be outstanding as will the hospitality suites dispensing cheer from exhibitors who hope you will mark your calendar and join with them.

## Architects Society of Ohio Honor Awards Program — 1970

*To encourage excellence in architecture, the Architects Society of Ohio announces its Annual Program of Honor Awards. Awards will be made for distinguished accomplishment in architecture by members of the Society for any building completed since May 1, 1966.*

### COMMITTEE

Ralph A. Goodenberger, AIA, Eastern Ohio, Chairman  
E. Keith Haag, AIA, Akron  
Charles H. Stark, III, AIA, Toledo

## OBJECTIVES:

To encourage excellence in architecture, the Architects Society of Ohio announces its Fifth Annual Program of Honor Awards for architectural projects completed since May 1, 1966. Through the program, the ASO seeks to honor works of distinction by its members and to bring to public attention outstanding architectural services rendered by its members in recent years. Consideration will be given to submittals on the basis of excellence in total design regardless of size or classification.

## ELIGIBILITY:

All entries shall be executed architectural projects designed by members of the Architects Society of Ohio. The projects must have been executed in the State of Ohio and completed after May 1, 1966.

Projects which have won awards in other programs are eligible for submission.

Award winners in this Program may not be resubmitted in future years; all others may be resubmitted if building completion was not prior to prescribed date.

All entries shall be submitted in the manner herein specified and prior to August 14, 1970.

## CLASSIFICATIONS:

The program is open to architectural projects of all classifications. It is not necessary that the entrant designate his entry by category. In the judgement, equal emphasis will be given to all classifications. An entry may be one building or a related group of buildings forming a single project.

## METHOD OF SUBMITTING ENTRY:

In the submission for judgement all materials shall be contained in an 8½" x 11" Full-Vu Economy Binder, Type CB-10, containing ten (10) transparent Mika film window sleeves for displaying twenty (20) inserts, back to back. On receipt by the Society of entry slip and fee, each entrant shall be mailed one (1) binder for each project entered and paid for.

Only those entries which receive awards will be subsequently presented for exhibition. All entries will be returned to the entrants.

## PHOTOGRAPHS:

**Exterior:** In the case of a single building, a minimum of two 8" x 10" or 8½" x 11" photographs which together show all principal exposed sides of the building. In the case of a group of buildings a minimum of one photograph of the whole group with necessary supporting photographs showing the principal buildings in the group.

**Interior:** A minimum of one 8" x 10" or 8½" x 11" photograph.

**Photographs must be black and white, either glossy or matte finish.** It is emphasized that the objective is to evaluate

the building, not to reward a photographer's skill in concentrating on photogenic composition.

**Important:** Each brochure shall contain a minimum of two and not more than six 35 mm color slides, and such supplemental photographs or informal snapshots as may be necessary in order to show the relationship of the project to its immediate environment including adjacent structures.

## PLANS:

**Site Plan**—at small scale. **Floor Plan** or Plans and one or more sections—sufficient to explain the solution. Plans must be to scale, but may be shown in any medium. Scale at discretion of entrant as large as practicable. Scales must be shown graphically.

Plans shall be on 8" x 10" sheets slipped into transparent window sleeves. Plans on larger sheets or folded plans will be discarded for judgment.

## DESCRIPTIVE DATA:

Please use the sheet which accompanies the binder, for recording descriptive data. In order to simplify the task of the Jury it is requested that this data be stated as briefly as possible and that it shall be included on one sheet. Insert the sheet, properly filled out, in transparent window sleeve.

## CONCEALED IDENTIFICATION:

The following information shall be placed in an opaque, sealed envelope and inserted in the final transparent window sleeve:

Name and location of project.  
Name of Architect — Address  
Name of Consulting Engineer if Engineering contributes particularly to design.  
Name of Landscape Architect.  
Name of Owner (or Developer).  
Name of General Contractor.

## CLOSING DATE AND FEE:

All entries must be received at the office of the Architects Society of Ohio, 37 W. Broad St., Columbus, Ohio, no later than August 14, 1970. Indicate on envelope, "1970 Architects Society of Ohio Honor Awards Entry."

A registration fee of \$20.00 for each building submitted must be paid by the entrant. The entry slip and fee must be received by the above office prior to June 26, 1970.

Checks or money orders shall be payable to "Architects Society of Ohio." No entry fees will be refunded for entries which do not materialize.

## JURY:

The Jury will be three prominent architects of a major city outside Ohio, selected by the Awards Committee. The Jury will name its own chairman. Judgement will be made in the home city of the Jury members, during the month of August.

## AWARDS:

The entrant should bear in mind that his project will not be judged in competition with other entries, but on the basis of his solution of the problem presented him and its worthiness for an award for excellence in architecture.

Insofar as the quality of the entries shall warrant, the Jury shall select one or more First Honor Awards for Distinguished Accomplishment in Architecture. The Jury shall also select for Awards of Merit in Architecture as many exhibits as it deems deserving.

Suitable awards will be presented to the architects and owners of all buildings receiving either First Honor Awards or Awards of Merit.

## EXHIBITION:

Entrants whose exhibits have been selected for display will be so notified immediately following the judgment.

At this time they will receive program notification covering preparation of their exhibits and directions for shipment of their exhibits. All Awards will be presented at the Society's Annual Meeting, October 29-31, 1970.

## PUBLICATION:

The Society will give wide publicity to the Award winning entries.

It is essential that drawings and photographs not be restricted against publication in connection with the Honor Awards program and any publicity therefore. It is the entrant's responsibility to make sure that all drawings and photographs are cleared for release by the Society, which will assume no responsibility for copyrights or photographic fees. The designated photograph of each award winning entry will be used for unrestricted newspaper and magazine publicity. The photographer's credit line will be given when requested.

The Society reserves the privilege of retaining possession of all original mounts of submission for reproduction and subsequent exhibition.

## TIME SCHEDULE:

July 6, 1970	Entry slips and fee deadline.
August 14, 1970	Deadline for receipt of submission in brochure form
August 21-22	Judgment.
August 27	Notification to winners with specifications for mount presentation.
October 30	Public announcement and presentation of Awards at A.S.O. annual meeting.

*"OK, baby...suppose all our stores do go all-electric.  
What happens to our 'folksy' image?"*

The folksy image remains intact. But the climate control is strictly *modern*... all-electric, to assure a fresh, today-type atmosphere.

Clean electric heating, dependable electric air conditioning and well-planned lighting keep business surroundings attractive to customers. All-electric operation is attractive to businessmen, too — because the all-electric building has proved to be an excellent long-term investment.

How excellent? Ask us for a cost comparison of all-electric vs. older systems.

## ARCHITECT LEADS DAYTON INTO THE 70s

The newly-elected president of Dayton's City Plan Board is ASO member George Walter, AIA. Walter plans to focus on the coming decade, not the far distant future, a matter which he made quite clear in an interview with the Dayton Daily News at the time.

"We're hoping to do something now, not the year 2000", he told reporters. "Too many programs are on the shelf. We need some implementation."

One of his major goals for his city is to try to reverse the flow of people from the central city. The Plan Board has a prospectus for the Dayton of the 70's that focuses on people planning rather than land planning. Walter sees the city's number one problem as the provision of better housing.

A native of Gallipolis and a graduate of Ohio State University, Walter is a partner in the firm of Lagedrost & Walter. He was president of the Dayton Chapter of AIA in 1968-69, and is active in the Shrine and a member of the Mercator luncheon club. As a member of the ASO Board of Trustees, Walter was named to the ASO Executive Committee in January.

## **NEW** **CURON<sup>®</sup>** *...for those who want improved performance from cast-in-place concrete*

Due to Curon's unparalleled moisture-retention ability, it assures early development of design durability and minimizes shrinkage cracks — at low cost.

- Where adequate moist or wet cure methods are not practical.
- Where usage requirements are critical.
- Where predictable concrete performance is required.
- Where broad tolerance for field conditions is necessary.
- Where low labor costs are important.

Developed by one of the world's foremost research laboratories, Curon exceeds ASTM and Federal Specification performance requirements. Write for Spec-Data Sheet L-5035.

# James Holroyd, new board president

H. James Holroyd, FAIA, Columbus Architect, was elected president of the State Board of Examiners of Architects at its meeting in Columbus on January 29-31. Mr. Holroyd, who is serving his fourth year on the Board, is a partner in the firm of Holroyd and Myers and has served on county and city planning commissions, the Columbus Airport Commission and the Mayor's Committee for Community Improvement. He has been a member of the Mid-Central States and NCARB Examination Committees.

Other officers advanced at the Board meeting were: Arthur F. Sidells, Warren, vice president; John B. Gartner, Jr., Cincinnati, secretary; and Howard B. Cain, Cleveland, assistant secretary. Horace M. Coy, Toledo, is the retiring president. Burt V. Stevens was reappointed executive secretary.

The Board met at the OSU School of Architecture to grade drawings from the December registration examination and to counsel with fifth-year students. It met with all school heads at its March meeting.

# LEGAL ACTION TAKEN by EXAMINING BOARD

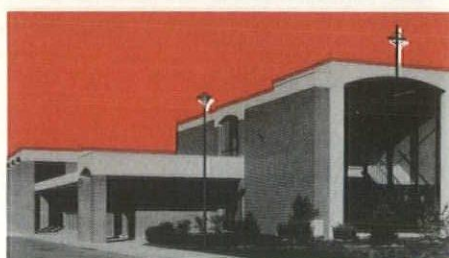

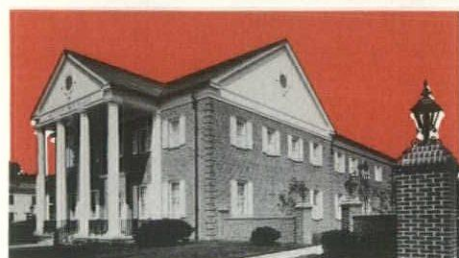

At a formal hearing in December, the Board of Examiners of Architects found a partnership of Indiana Architects registered in Ohio guilty of violations of the Ohio Registration Statute. They were charged with signing drawings for which they were not the actual Architects and with aiding and abetting other persons, not properly registered,

in the performance of activities which constituted the practice of architecture.

The registrants' certificates were suspended for two years, but suspension ordered withheld upon continued compliance with several requirements set out by the Board.

Board action against a Lima lumber company and one of its

employees to obtain a permanent injunction against their further unauthorized practice was terminated upon the signing of a Journal Entry in the Allen County Common Pleas Court in which the defendants agreed to cease and desist. This action was taken with the assistance of Lawrence S. Huffman, the Prosecutor in Allen County.

## *Nothing excels the adaptability of brick for* **Design • Structural Flexibility** **Color Harmony • Cost Control**

These are the reasons why so many outstanding buildings are today using brick construction in one or many ways. "3G" brick is being selected by leading architects because the choice of 200 colors and textures gives unlimited possibilities for design expression. "3G" has the capacity to produce and deliver brick to meet construction schedules. "3G" quality brick will provide enduring beauty and strength that will prove an important economy to the maintenance of the building. Consult "3G" on your projects.

**Over 150,000,000  
annual brick capacity  
from 5 plants**

## 3 out of 12 AISC Awards

Ohio structures were prominent in the 1969 Architectural Awards of Excellence selected by the American Institute of Steel Construction.

Among a variety of designs that collectively demonstrated the different capabilities of steel were the following:

- Blossom Music Center, Northampton Township; Architects-Schafer, Flynn, van Dyjk and Dalton, Grimm, Johnson. . . "reflects sophisticated engineering."
- The Playhouse in the Park, Cincinnati; Architects-Hardy Holzman Pfeiffer Associates . . . "does not read as a steel building — its use of steel trusses is both inventive and highly appropriate to the fantasy of the theatre."
- Modular Apartment Prototype, Westlake, Ohio; Architect-Donald E. Van Curler, AIA . . . "handsomely demonstrates the potential of steel in the nation's struggle to achieve factory-built lower-cost housing."

## A NEW DIRECT SALES SUBSIDIARY OF COLUMBUS HEATING & VENTILATING CO.

The School Division of Columbus Heating and Ventilating Company announces the formation of a wholly owned "direct sales" subsidiary. The new organization—A.C. & H. Equipment Distributors Incorporated—will offer for installation by others all air heating and ventilating equipment for new schools, churches and other types of high occupancy or large area installations. This equipment was formerly sold by C.H. & V. on an installed basis only.

The sales engineering services of the parent company will be available to distributors throughout the country to advise on the application and use of the equipment.

C.H. & V. will continue to supply parts and service to its previous customers.

Your inquiries are solicited. A company representative will call at your request.

## Hagely heads Battelle team

John R. Hagely has been named Chief of Construction Systems, Planning, and Economics research at the Columbus Laboratories of Battelle Memorial Institute. He heads a team of specialists concerned with problems facing the construction and housing industries both in urban and rural areas.

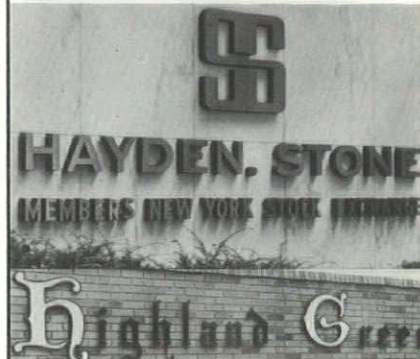

Hagely brings to his new position experience in varied phases of construction — particularly with respect to housing systems. A Battelle staff member for eight years, he has been involved in studies concerned with technological changes in the construction industry, factors contributing to substandard nonresidential housing, and the development of low-income housing programs.

Prior to joining Battelle, he held professional positions in architecture at the University of

Cincinnati and The Ohio State University.

Hagely holds bachelors and masters degrees in architecture — granted by The Ohio State University and the University of Illinois respectively. He is a member of the Board of Directors of the Rural Housing Alliance. His professional affiliations include American Institute of Architects, American Society for Testing and Materials, Architects Society of Ohio, and Construction Specifications Institute.

## Fessler named to Toledo staff

Robert A. Fessler has been named to the architectural staff of Samborn, Steketee, Otis and Evans, Toledo architects-engineers-planners.

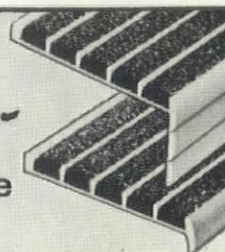

An architectural graduate of the University of Cincinnati, Mr. Fessler has been a registered architect in Ohio since 1965. His appointment brings to ten the number of registered architects on the SSOE staff.

Mr. Fessler is co-chairman of the annual student design competition sponsored by Toledo Edison Company and American Institute of Architects; public relations chairman for the AIA, and a member of the Downtown Exchange Club's Board of Directors.

## WOOSTER SAFETY TREADS AND THRESHOLDS

Finest quality  
with extra features  
like these...

### Colored Abrasive Ribs

Give unusual decorative effects. Beautiful satin aluminum and long wearing safety surface.

### Matching Thresholds

Decorative beauty for entrances and heavy traffic areas.

### Special Sections

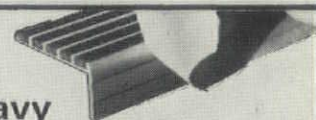

Large variety including landings, recessed for tile (shown) and many others.

### Sure-hold Anchors

For fresh concrete or terrazzo. Also strap, wing or screws.

### Heavy Protective Tape

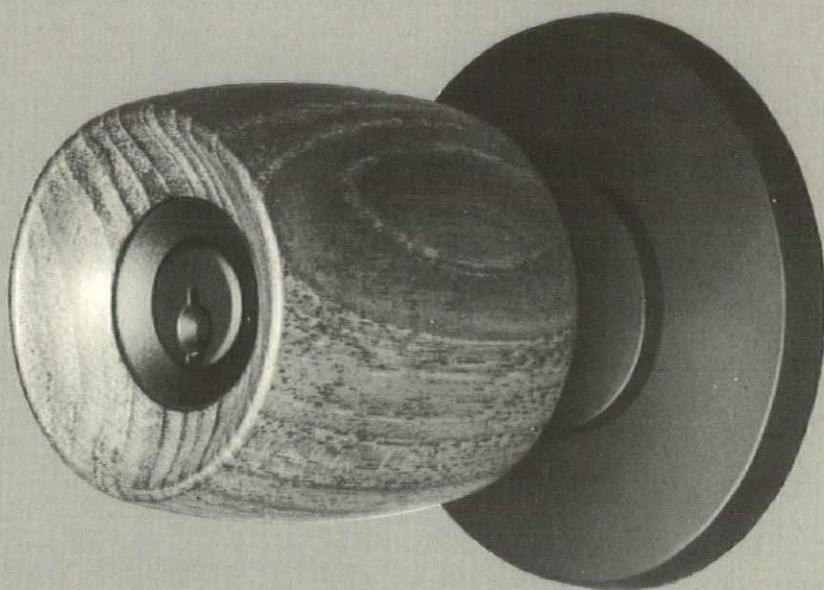

Optional. Protects from dirt, etc., during construction. Peels off.
